Johnson Auto Euro Complete Lifetime Care

No matter the age of your European auto, Johnson Automotive uses original manufacturer specification fluids. It is important to stay up-to-date on maintenance in order to prolong the life of your vehicle, as well as keeping it performing to the best of its ability.

We recognize that some manufactures like Mercedes Benz and BMW have 15K and 10K mile suggested service intervals. However, you should come in every 7,500 miles for filter, tire service and fluid level inspection, and our complete life time care program requires a 7.5K maximum service interval.

The information listed below is for the most current models. This will generally apply to models from 1999 and onwards and is designed to be simpler. Your car will indicate to you when it's time for a checkup with a service light, but it is best to keep in mind the basic rule is to bring it in every 7500 miles or at least once a year.

Imported, Domestic & European

Complete Lifetime Care How?

Follow our shop-recommended service intervals to protect your vehicle for its **lifetime.**

To qualify: For Lifetime Protection Plan, initial service(s) must begin within 36,000 miles to receive 100% coverage. If your vehicle has between 36,001 and 75,000 miles on the odometer, you receive 50% coverage.

To maintain protection: Service interval: 30,000 miles. Engine service interval: 7,500 miles. Up to 9,500 pounds GVW.
